Tena koe Christine,

I can inform you that the position you have claimed is most definitely not the case. Where would you draw such a conclusion from? Please let me know.

I have meet twice with Ryman - there has been no agreement, but there have been lots of dudcussions.

I will reply in writing - and also copy in the many others that your letter has misled.

I am not happy with how the Architectural Centre has positioned this matter.

Ngā mihi
Andrew
