Tena koe Christine,

Thanks for the letter and advice.

There has always been a number of matters taken into account by the Board of Heritage New Zealand Pouhere Taonga when determining the approach that we are taking, in this case on the (former) Karori Teachers College campus. Financial liabilities are only but one of those.

Your advice is interesting, and contrary to other legal advice that we have received.

I have offered a number of times in the past for you and others from the Architecture Centre to come and speak to me about our current approach. I do so again, so please let me know if you would like to take up that offer and I will find time in my diary.

Nga mihi

Andrew
